

# Rathore Insulation & Integrated Industrial Solutions

Estd. : 2000

We are a trusted industrial service provider known for disciplined execution, certified manpower and a safety-first approach. For over two decades, we have supported running plants, shutdowns and critical industrial operations with reliable, on-time delivery. Our work reduces losses, protects assets and ensures uninterrupted plant performance.

## Who we are

Started as an insulation contractor, the company has grown into a multi-disciplinary provider offering insulation, coating, fabrication, scaffolding, electrical, civil works and manpower supply under one roof. Clients trust us because we plan well, coordinate with production and deliver safe, documented results—every time.

## Mission

To protect industrial assets with engineered solutions that reduce risk and enhance efficiency.

## Vision

To be the preferred partner for integrated industrial services known for reliability and discipline.

## Principles

- Safety is non-negotiable
- Quality in every task
- Accountability as culture

# Industries We Serve

We work in high-risk, precision environments including:

- Chemical & Petrochemical Units
- Power Plants • Steel & Metal Industries
- Fertilizer Units • Cement & Mineral Plants
- Engineering Workshops • Paper & Pulp
- Continuous Process Units

Assignments include shutdowns, preventive maintenance, emergency work and annual contracts.

---

## How We Operate

- Fast mobilization
- PPE & permit compliance
- Strong safety discipline
- Coordination with production teams
- Daily supervision & reporting

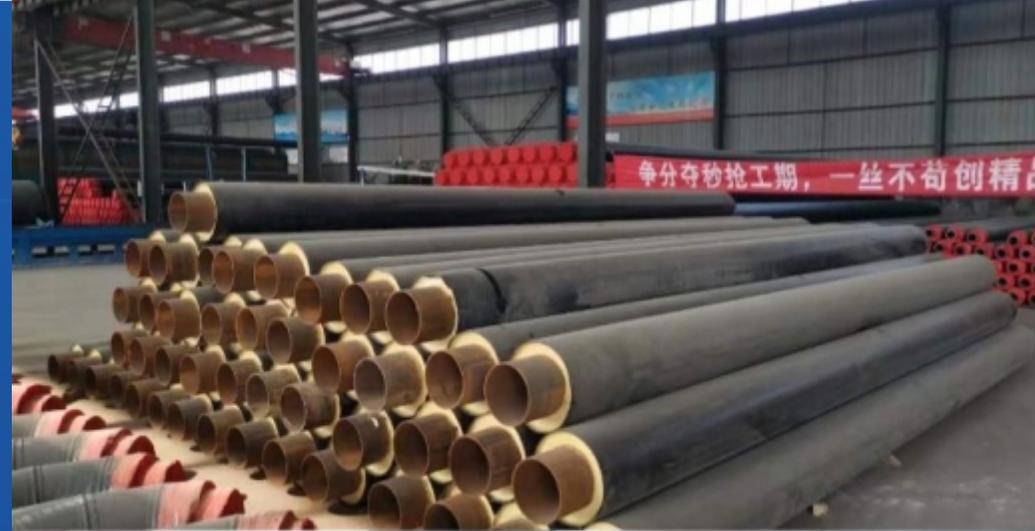

# Industrial Insulation

We specialize in hot, cold and acoustic insulation for pipelines, vessels, boilers, ducts, exchangers and critical equipment.

## Scope:

- Material supply
- Cutting, fitting, lagging
- Aluminium/SS cladding
- Supports & flashings
- Shutdown repairs
- Weatherproofing

Materials: Rockwool, LRB, Glass Wool, Calcium Silicate, Ceramic Fiber, PU/PIR etc.

# Coating & Corrosion Control

We apply protective coatings to enhance durability and reduce corrosion.

## Services:

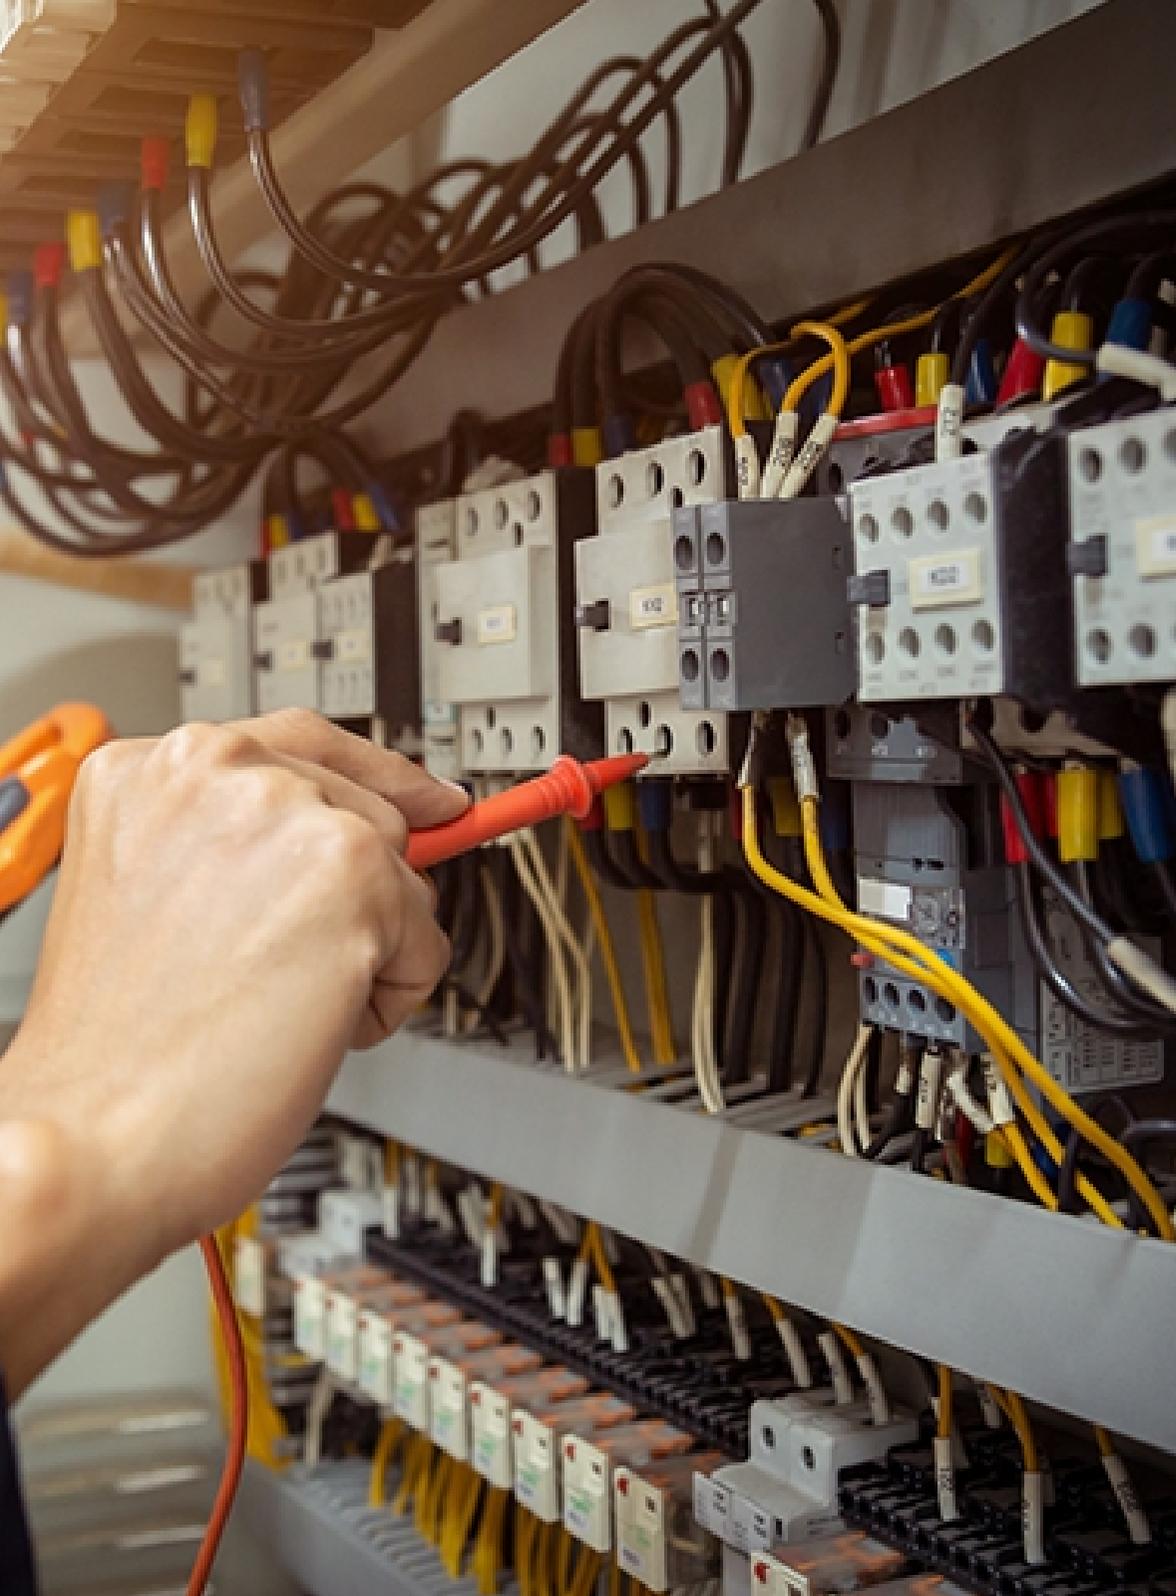

- Surface cleaning & blasting
- Primer, epoxy, PU coatings
- Chemical-resistant finishes
- Fireproofing
- Heat-resistant coatings
- DFT checks & documentation

## Fabrication & Mechanical works

Structural and mechanical fabrication including :

- Pipe spooling
- Supports & platforms
- Walkways & stairs
- Tanks, ducts, custom steel
- Site erection & welding
- Integration with insulation/coating

## Electrical & Instrumentation

We apply protective coatings to enhance durability and reduce corrosion.

- Cable trays & route engineering
- Cable pulling, glanding, termination
- MCC/panel installation
- Instrument mounting & loop checks
- Lighting, earthing & documentation

# Scaffolding

---

Certified teams for :

- Scaffolding design & erection
- Confined space & height access
- Load checks & tagging
- Daily inspection & dismantling

# Manpower Supply

Skilled manpower for shutdowns & long-term deployment:

- 
- Welders, fitters, riggers
  - Scaffolders & insulators
  - Electricians & technicians
  - Supervisors & engineers

# Civil Works

---

Industrial civil support :

- RCC foundations
- Floor repairs and finishing
- Masonry & plaster
- Drainage & trenching
- Renovation & maintenance

## Specialized Adaptability

Beyond our core listed services, Rathore Insulation possesses the capability, resources and experience to mobilize and execute additional industrial services based on the client's specific or emerging project requirements.

Industrial environments are dynamic. Scope changes, shutdown extensions, emergency repairs and unplanned work are part of reality. Our strength lies in responding quickly and responsibly to such situations.

With an established workforce, supervisory strength, equipment access and vendor network, we are able to scale operations or introduce new service elements without disrupting ongoing work.

This adaptability allows us to support:

- Additional scope during shutdowns and turnarounds
- Emergency maintenance and breakdown response
- Cross-discipline support beyond the original contract
- Short-notice manpower and equipment mobilization
- Customized execution aligned with plant priorities

Clients rely on us not only for defined contracts, but also for problem-solving when conditions change. Our approach is simple: understand the requirement, mobilize the right resources, execute safely and deliver without delay.

# Our Work

Images represent real work executed in :

- Insulation & cladding
- Coating & blasting
- Fabrication
- Scaffolding
- Electrical installations
- Civil support

Photos reflect live plant conditions—  
shutdown pressure, height  
work & night operations.
